Philosophy for Understanding Theology (Part II)

August 18, 2018, 9 a.m. – 3 p.m.
Presented by the Rev. Dr. Frank Yates

Theology is faith seeking understanding.
– Anselm of Canterbury

Consider the impact Kant, Hegel, and others had on 19th century theology. Examine 20th century movements: existentialism, logical positivism, language analysis, philosophies of liberation and hope, and postmodernism. Contemplate ways that Christian theology might respond to the intellectual currents of our time.

No previous background required; this seminar includes an overview of part one.
